

Supergrass

Supergrass® is a premium wrap and is known as the “Rolls Royce of our silage wrap range”. An ultra-resistance wrap, when stretched in any direction. Supergrass® is specifically designed to be used on high speed wrappers and square bales.

BENEFITS

- Ultra-resistant film when stretched in both transverse and longitude directions
- Plastic and Dricore (paper-based water-resistant core) options available
- Excellent adhesive strength with improved elasticity
- High resistance to perforation
- UV stabilised for 1 year
- 25 Micron Thickness
